Memo for the President from DCI
dtd 26 Feb 76, Subj: Classified CIA
Documents Missing From House
Select Committee Files

26 February 1976

MEMORANDUM FOR THE PRESIDENT

SUBJECT: Classified CIA Documents Missing From
House Select Committee Files

1. This memorandum is intended to serve as an interim report on the status of classified CIA documents requested by and furnished to the House Select Committee on Intelligence during its investigation of the intelligence community.

2. By agreement with Chairman Pike, all materials furnished to the Select Committee by the Executive branch were inventoried, packaged in sealed cartons, and transferred to CIA Headquarters for safekeeping, pending a final decision on the disposition of these materials by the House of Representatives or the Speaker of the House. The inventory and sealing of the cartons were conducted by Executive branch representatives under the supervision of the House Select Committee staff.

3. In attempting to reconcile CIA records of documents delivered to the Select Committee with the inventory of CIA materials received for storage at CIA Headquarters, we find that approximately 230 classified documents are missing. The more sensitive of these missing documents are identified in Attachment A by general subject category, number of documents involved, and security classification. A complete inventory of the missing documents is now being compiled and should be ready in the near future. When this list is completed, I plan to have my representatives meet with Chairman Pike to determine what measures can be taken to locate or account for these missing documents.

4. Other Federal agencies are also checking their records and inventories to determine whether any of their documents are missing.

5. The foregoing pertains only to missing materials as we have no way of accounting for the multiple copies of classified documents reproduced by the Select Committee staff from originals made available by the CIA and other Executive departments and agencies. I have advised Chairman Pike, in a letter dated 25 February 1976 (attachment B) that I trust such multiple copies of documents not returned to CIA Headquarters for storage have been destroyed in accordance with procedures appropriate for classified materials.

6. I share your concern over the mishandling of sensitive classified materials by the House Select Committee on Intelligence and I intend to pursue this matter as far as possible.

George Bush
Director
